

Letters from Alliance Clients

The following is a selection of letters from satisfied clients that recommend **UVTEC**.

Amazing product. We recommend UVTEC to all our clients.

Quality Curtains & Soft Furnishing Specialists Tauranga

Come in & view the UVTEC Coated Window in our showroom.

Greerton Furnishings, Tauranga.

After seeing the results from having our showroom windows coated with UVTEC we have no hesitation recommending UVTEC to all our clients. UVTEC is a well-researched product that provides a long-term solution to minimize the damage caused by the harsh UV light in the Tauranga area. Their preparation was painstaking and the workmanship very professional.

Malcom Brownie Company Director Christies Flooring, Tauranga.

I have recommended UVTEC product for years and the feedback to me has been excellent. We have just used this product on our own windows and we are very impressed with the application and the applicator. Everything was done to a very high professional standard and we are delighted with the result.

Mike Steiner, Director. Mike Steiner Interior Design Rotorua.

With over 20 quality show homes throughout New Zealand it is important that we protect valuable furnishings and fittings from the fading effects of the suns UV rays. Recently we had installed UVTEC to the canopy Show home in Rotorua. We felt this necessary as the furniture and carpets had deteriorated dramatically from the suns rays. We received professional advice and guidance from UVTEC and the fitting of their "product" was professionally undertaken. To the naked eye you would not know it was there. I have no doubt that based on the technical testing that has been done that the product will live up to its recommendation.

Lance Eccles Rotorua Show Homes Lockwood

(The above was a result of a recommendation from Mrs LaGrouw whose home has UVTEC protection. 7th May 2003).

After refurbishing our home we decided to have a UV protective coating applied to our windows... After hearing the UVTEC advertising on the radio we decided to get them around... Their preparation was painstaking and the results speak for themselves. We have no hesitation recommending them or their product to anyone.

Mark & Catherine McIlroy, Karori.

UVTec Solutions provided us with prompt professional and friendly service. We are amazed at the clarity of view through our windows! We now have the confidence to leave the curtains open and enjoy the view without worrying about UV light damaging our furnishings.

Beris DeMuth Papakowhai

We find the provider of UVtec in Hamilton extremely helpful and prompt. Having the product in one bay of windows is an excellent way of showing our clients the difference both visually and effectively. We recommend UVTec to all our clients especially those with high sun exposure.

The Soft Furnishing Shop Te Rapa Hamilton

UVtec Hamilton have applied UV protection to our showroom windows in order to protect our range of carpet samples that have up to now had to be replaced on a regular basis because of fading. This is no longer the case, an excellent product

Selecta Carpets Frankton Hamilton

With five stores throughout the South Island colour fastness is a real issue with fabrics and furnishings. That's why we have Hunter's showroom windows treated by UVTec.

We recommend UVTec for your home

Paul Hunter Hunter Lounge Suites.

UVtec is without doubt the answer to virtually eliminating the sun's ability to damage your valuable carpet, drapes and furniture through fading, and is completely undetectable on your windows. Call into our showroom and see for yourself. We totally endorse this incredible product.

Tailors Floorcoverings & Furnishings Ltd. Christchurch

We have recommended UVTec for a number of years now. The damage ultra violet rays that prevail these days are a real concern with regard to furniture, furnishings and carpet etc. We believe that UVtec has the right credentials to be effective in this area.

AG Milliken, Director Ashley Milliken Furniture Court Timaru.

As a retailer of leather lounge suites we are regularly asked " Will the sun affect my furniture?" The answer is YES! We highly recommend UVTec as protection for your furnishing investments.

Fitzroy's Interiors, Christchurch.

We welcome your visit to our showroom to view out UVTEC coated windows. Research showed that this product offer's a high level of UV protection to enable us to display our quality range of furniture in our window settings.

UVTEC was applied to our windows three (7) years ago and to we have had no UV damage or fading.

Danske Mobler. Hamilton

We have had our furniture protected by UVTEC for over ten years and are pleased with the protection that it has provided

Timothy & Denise Glubb: Tillmans Furniture Christchurch.

I have been involved with the product for approx. 5 or 6 years not only using it in my own homes but within the last year we had it applied to the windows of our very sunny Retail Store.

We continually endorse this product also for our clients and to date everyone has been thrilled with the results.... That is the UV protection, which is offered with this great product

I was fortunate enough to go to an open day of a home we sold around 5 years ago and was delighted to see that the carpet and leading edge of the drapes had not been affected by UV rays of course this home had had UVTEC applied.

We are currently in a home that we as yet haven't had the UVTEC applied but will be before next summer and every day I realize the exposure of the UV rays have on my carpet drapes etc, (I must ring Ralph and arrange a quote!!)

I believe this is a wonderful product and have no problem endorsing UVTEC.

Jenny: Town & Country Interior Design Christchurch.
